SELECTED EXPERIENCE

Dario is a Research Fellow at TRASPOL (Politecnico di Milano). Currently working on "Econometrics and CBA for transport project and policy appraisal". Transport Economist specialized in public transport and communication, cooperated with various engineering companies as an independent consultant. His most relevant experiences include the Tuscany Public Transport System Technical Due Diligence (for Leigh Fisher Ltd), communication initiatives to promote public transport in Tuscany, stakeholder engagement assignments and academic studies on public transport in Italy and UK.

He is president of AMT Toscana (Association for Mobility and Transport studies in Tuscany). He has arranged conferences, seminars and undertaken studies and scientific dissemination on public transport. For three years he has served as stakeholder engagement coordinator with Florence Municipality, Gest SpA, RATP Dev for the project of the Tramway network extension in Florence (Italy).

During his academic studies in the UK (Institute for Transport Studies – University of Leeds) he undertook a research on the reimbursement methodology for the *Concessionary Fares*. In particular, the study investigated the "Mohring Effect" existence in the unregulated bus market outside London. During the academic internship for his BSc in Economics he contributed to reshape the northwestern rail service in Tuscany.
